

TOWN OF SURFSIDE, FL

game changer

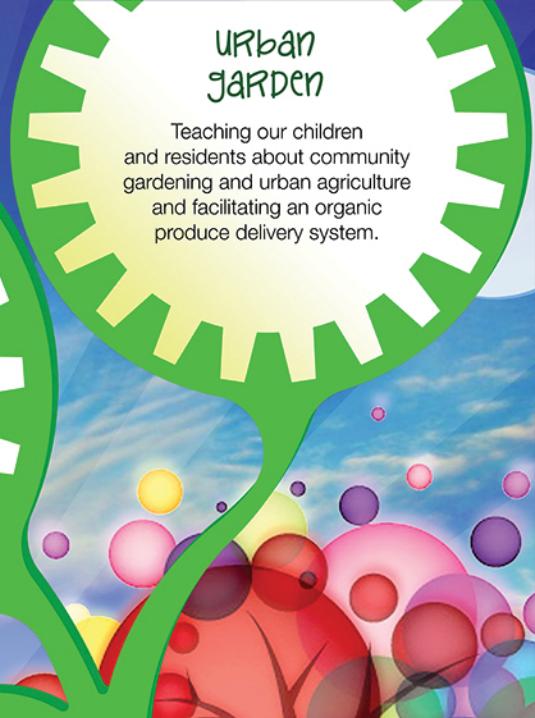

building a sense of community with regard to climate resilience

seawall & utility improvements

Preparing our community for sea-level rise.

Tackling daunting infrastructure projects such as a complete utility replacement, sea wall upgrades and establishing a Clean Energy Coastal Corridor.

urban garden

Teaching our children and residents about community gardening and urban agriculture and facilitating an organic produce delivery system.

electric car chargers

Minimizing the Town's carbon footprint.

OTHER TOWN INITIATIVES

- Minimizing the Town's carbon footprint by initiating a bike sharing program;
- Coordinating our circular bus with surrounding communities;
- Enhancing our beach walk;
- Creating a downtown environment that is pedestrian friendly and an attractive place to walk;
- Enacting legislation in support of environmental and sustainability initiatives and design/build guidelines; &
- Providing Sea Turtle Awareness programs.
