

TOWN of SURFSIDE

GAZETTE

NOVEMBER 2010

Town Manager's Message

It has now been six weeks since I came on board as Interim Town Manager. What a whirlwind it has been. Here are a few observations from that six weeks and from nearly 40 years serving government:

1) At the risk of being branded as "self serving," we have a wonderful Town Commission. All our citizens may not agree with every decision or the processes to get to a decision, but the Town Commission is deliberative, well prepared and has the Town's best interests at heart.

2) We have a group of executives who work hard and to the best of their ability. The level of expectation and accountability has been raised significantly in the past six weeks and most staff have risen to the challenge. We have already made some organizational changes to improve performance and more will be coming.

3) We are quickly jump-starting capital projects. Take a look at the Community Center. It is a beehive of activity and we have a plan to add 1,200 square feet at a very low cost and with available funds. That is nearly a 50 percent increase in public meeting and activity space. The water, sewer and storm drainage project financing will be discussed with the Commission in November, grants have been applied for and the design is complete. This 15-month project will modernize our system and bring Surfside into regulatory compliance. This is not being done to allow more growth, rather, the system is old and there is no choice but to modernize.

4) We have a new emphasis on cleanliness. There will be a part time employee added to clean the parking lots and the downtown area in the next few weeks and Town Hall will receive a much needed paint job.

5) We will see the new multi-space meters before year's end and red light cameras in the spring.

6) The Code Enforcement and the Communications Committees have had their first meetings. These services need to be prioritized and modernized. The joint Planning and Zoning Board and Town Commission meeting will develop a shared vision and address controversial zoning amendments. Hopefully, everyone will be patient while this process works its way to closure. Finally, the downtown visioning process will be restarted soon to create a vision of what we want our downtown to

—————> *Continued on Page 3*

County Commissioner Funds Life-Saving Buoys

The Town of Surfside will soon have life-saving buoys available for emergencies on the beach thanks to a \$2,700 grant from Miami Dade County Commissioner Sally Heyman. (L-R) Commissioner Michael Karuken, Mayor Daniel Dietch, Vice Mayor Joe Graubart, Honorable Sally Heyman, Commissioners Edward Kopelman and Marta Olchyk.

Civic Association Sponsors Holiday Fund

The Surfside Civic Association is proud to continue the 40th anniversary of the Surfside Employee "Holiday Fund". Now is the opportunity to show your appreciation to the Town Employees who work year round to improve the quality of life in our town.

All contributions should be sent to: **Surfside Civic Association "Holiday Fund," P.O. Box 547162, Surfside, Florida 33154 .**

E-Billing Notification Service Available

The Town of Surfside implemented a new utility e-billing notification service. The service allows Surfside customers to receive an email notification of their utility bill. We encourage you to participate by providing your name, billing address, account number (if available) and email address to utilities@townofsurfsidefl.gov. Note that this service is in addition to the normal monthly printed utility billing you receive via regular mail. *Don't wait, sign up today!* Your feedback is welcome, send comments to: utilities@townofsurfsidefl.gov. Staff is also working on a system that will allow bills to be paid on-line.

Return Your Books & DVDs

Residents are asked to please return all books and movies to the return boxes located outside the Library modular on Harding Avenue next to Town Hall (9293 Harding Avenue).

Community Center Construction Update

The Contractor has poured all 18 Y-columns (pictured below) which will support the roof. The steel shown at the top of the columns is structural steel which will tie to the roof slab. The storm water drainage structures have also been installed. The foof slab is scheduled to be poured in early December. The roof requires a great deal of structural steel because it is designed to support a future second story.

We are committed to a mid-April 2011 Temporary Certificate of Occupancy (TCO) which would allow staff to occupy the building while a "punch list" of items are resolved. Beginning on May 15, a two-week celebration is being planning that will include all elements of the community. We hope to complete the celebration with a Memorial Day fireworks event. More information will follow as the program evolves.

be, ensuring that our quality of life is enhanced. This is also critically important as the new St. Regis residents will greatly expand our market and the proposed expansion of the Bal Harbour shops will do the same.

Thanks for taking the time to read this and now it's time to get back to work.

Roger M. Carlton,
Interim Town Manager

Interim Town Manager Takes Oath of Office

Former Miami Dade County manager and well-known public official Merrett Stierheim (R) gives the Oath of Office to Interim Town Manager Roger M. Carlton.

Town Meetings Available on DVD

A DVD recording of the current monthly Town Commission and Planning & Zoning meetings are available for check out at the Town Hall front desk. There is no charge to borrow the DVD. We ask that it is returned within a couple of days so it will be available for other residents. If you have any questions regarding the program, please feel free to contact Debra Eastman, Town Clerk at 305-861-4863 x226.

County Water Treatment Notice

The Miami Dade County Water and Sewer Department will temporarily change its method of chlorination. This will occur November 8–21. Consumers may experience unusual chlorine taste or odor in the tap water, but these temporary conditions will not cause adverse health effects. This periodic change takes place annually and will provide additional protection against bacteria. **If you have any questions, please call 305-520-4737.**

Recent Commission Highlights

At the October 12, 2010 Town Commission Meeting, the Town Commission took the following actions:

Voted to approve the following resolutions:

- Creating an ad hoc Communications Committee to study current communication systems and propose improvements and report back to the Town Commission
- Creating an ad hoc Committee to study the current code enforcement program and to identify opportunities and make recommendations for the future and report back to the Town Commission
- Providing for the fiscal year 2010/2011 Police Confiscation Fund expenditure in the amount of \$45,000 to be funded by confiscated funds
- Approving an agreement with Norman Atkin for the six month lease of lot 18, block 4, Altos Mar No. 5 to park police vehicles
- Calling for a joint meeting between the Town Commission and the Planning and Zoning Board to create a process to identify the issues to be reconsidered in the zoning code (Ordinance 10-1558) and authorizing Commissioner Michael Karukin to enter into discussions with the petition committee regarding ordinance no. 10-1558
- Authorizing the Town to enter into an addendum as to a name change only with AECOM Technical Service, Inc. for architectural services
- Supporting policies that focus on health, wellness continuing education and healthier lifestyles in all communities
- Authorizing the Town Manager and Town Clerk to execute a mutual aid agreement with the City of Miami Gardens, Florida Police Department and the Town of Surfside Police Department
- Authorizing the Town Manager and Town Clerk to execute a mutual aid agreement with the Town of Golden Beach, Florida Police Department and the Town of Surfside Police Department

Voted to adopt the following ordinances on second reading:

- Amending Chapter 78 "Utilities" including establishing among other things new service charges which shall be effective beginning fiscal year 2010-2011
- Amending Chapter 90 and specifically Section 90-41 "Regulated Uses" of the Town Code to allow parking as a use when subordinate to a main use in all districts
- Amending Chapter 90, Division 1. Off-Street Parking, Section 90-82 "Design Standards" of the Town Code to clarify the standards used for vehicular queuing, access to state roadways, and on-site circulation

Voted to introduce ordinances on first reading:

- Adopting the annual update to the Capital Improvements Element within the Town's Comprehensive Plan
- Amending Chapter 90 "Zoning", Article IV. "District Regulations" Section 90-41. "Regulated Uses" to allow surface parking lots to be located in any zoning district except residential; amending Article VII "Off-Street Parking and Loading", Division 1, "Off-street Parking", Section 90-77 "Off-Street Parking Requirements" and Section 90-82 "Design Standards" of the Town Code to add a provision relative to municipal surface parking and design standards

The Town Commission received certification from Town Clerk, Debra Eastman that the petition to submit ordinance 10-1558 (as adopted by the Town Commission on August 10, 2010) to the voters of the Town of Surfside could not be certified as sufficient in accordance with the Town Charter.

Town Commission voted/concurred to:

- Reimburse Town residents up to \$100 per household for Miami Dade Library System Cards up to a total allocation of \$12,000
- Mail an informational post card to town residents regarding a proposed Town Charter change to eliminate the Personnel Appeals Board which will appear as a question on the November 2, 2010 election ballot

Residents are Urged to Register with the Police Department's Emergency Notification Service

The Surfside Police Department has implemented a high speed emergency alert system, called CodeRED. This service will provide Town-wide or targeted prerecorded emergency telephone notification. These could include information messages, evacuation notices, missing child alerts, boil water notices, fire or flood disasters.

CodeRED provides the community with greater protection and enhanced communication during critical situations. Thousands of people can be alerted quickly and the controlled warning system ensures that every call provides consistent and accurate information. Other benefits include confirmation of the individuals selected, the ability to contact cell phones, send text messages and email. CodeRED reduces the demand on emergency personnel so that they may better focus and manage their response efforts.

To register your phone number into the database, please click on the CodeRED link on the Town's website www.townofsurfsidefl.gov. It is under the Police

CODE RED

Keeping citizens informed

Department pull down menu. This emergency network is a geographical based information system, which means street addresses are needed in order to select which phone numbers will receive the notification calls. Required information includes first and last name, street address (physical address, no P.O. boxes), city, state, zip code, and primary phone number.

Anniversary Brochure and Souvenirs Available

Complimentary issues of 75th Anniversary Brochure are available from the Parks & Recreation/Tourist Bureau office in the trailer on Collins Ave at 93rd St. and can be downloaded from the Town's website. 75th Anniversary Souvenirs are for sale in Town Hall.

Officers Honored for Exemplary Performance

Officer Craig Lovellette was named the July Employee of the Month for his efforts in locating and arresting a sexual predator. He responded to a call on the beach of someone performing lewd act in front of children. The subject had fled the area, but officer Lovellette searched the area relentlessly for 40 minutes and located the suspect hiding behind a wall. He was positively identified by the witnesses and was connected to similar crimes and arrests in the past. Officer Lovellette was honored for stopping the alleged predator and keeping Surfside residents safe.

Sgt. Rory Alberto, Det. Frank Colonna and Det. Joe Matthews were honored as the September Officers of the Month for their role in apprehending suspects in a home invasion robbery and assault. By interviewing the victim and processing the crime scene, the suspect was identified. Working with Miami Beach officers, the suspect was located and arrested, along with two other subjects on additional charges. The officers are congratulated for quickly removing a felon from the street and recovering stolen property.

(L-R) Asst. Chief John DiCenso, Mayor Daniel Dietch, Vice Mayor Joe Graubart, Officer Craig Lovellette and his wife and children.

City staff, elected officials and family members pose with Sgt. Rory Alberto, Det. Frank Colonna and Det. Joe Matthews (5th-3rd from right).

Resident Shows How Dogs Serve the Disabled

(L-R) Assistant Chief John DiCenso, Deborah Schilling-Jrade, Chief David Allen and Sago.

Deborah Schilling-Jrade, a Surfside resident, made a presentation to officers of the Surfside Police Department regarding the importance of service dogs that aid disabled persons. Accompanying Ms. Schilling-Jrade was her service dog, Sago.

Service dogs provide life-saving assistance to people with neurological disabilities. They also enrich the lives of disabled people and provide added independence. Ms. Schilling-Jrade travels to schools in Miami Dade County to help promote a better understanding of the functions and extensive training of service dogs. Deborah expressed how Sago has changed her life.

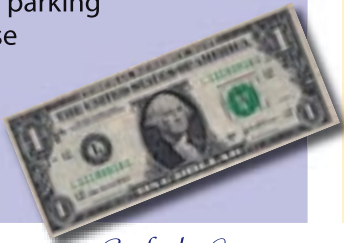

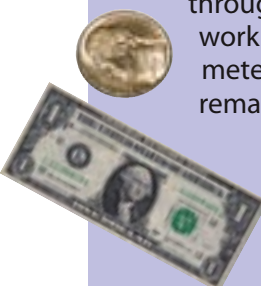

New Parking System to be Unveiled in December

The Town of Surfside will be installing new Pay and Display parking meters in Town owned lots and on-street along Harding Avenue. Preparation for the installation of the parking meters is underway and installations will begin in November. The new meters will be operational in early December and Town staff will be on hand to assist customers through the process of working with the new meter. Parking rates will remain the same.

The new meters are easy to use and deliver improved benefits including a range of payment options. The new meters will accept coins, bills, credit cards and debit cards and provide parkers with receipts that have the date and time of purchase on them.

The goal of the Town in installing the new parking meters is to provide the public with a greater range of payment options and increased convenience in paying for parking. The new parking meters will eliminate meter poles for an improved and aesthetically pleasing streetscape and free up sidewalk space for pedestrians and other uses.

To learn more about the new parking meters and how they work, please visit the Town website at www.townofsurfsidefl.gov or contact Assistant Chief John DiCenso at (305) 861-4862 or jdicenso@townofsurfsidefl.gov.

Frequently Asked

Pay-and-display Multi-space Parking Meters

1. How do the Pay-and-Display Multi-Space meters work?

The new multi-space parking meters work in a similar manner to bank machines or kiosks. Signage on the meter and on-screen prompts will walk you through the transaction process. The basic steps for purchasing Pay-and-Display parking are as follows:

- Press any key on the keypad to turn the meter on (if it is in "sleep" mode).
- Choose the amount of time you want to stay and the associated rate.
- Make a payment via credit card, debit card, bill or coin when prompted on the screen.
- If using a credit card, the meter will communicate with the bank to approve your credit card. This usually takes five to 15 seconds.
- Once payment is accepted, a receipt will print out in the receipt cup located below the credit card reader.
- Lift the clear cover up and remove your receipt.
- Place the receipt on the driver's side dashboard of your vehicle as instructed with the printed transaction information face up so enforcement can verify validity.
- The new multi-space meters are solar powered and environmentally friendly.
- If you have questions, you can get help 24 hours a day/ seven days a week by calling (305) 861-4862.

2. Why make this change?

The Town has many reasons for changing parking technology, including improved customer convenience, predictability and reliability. Many existing single-space meters were aging, requiring more frequent repairs and difficult-to-find parts. Beyond greater reliability, the other benefits that come with the new parking technology include:

- Parkers can now pay by coin, bill, credit card or debit card. You no longer have to worry about having enough change.
- Everyone gets a receipt to prove payment. This feature is especially beneficial to business parkers making expense claims on parking.
- Extensive reporting capabilities give the Town much better control over cash flow.
- Any number of rates may be configured on the system to give the Town flexibility in addressing different parking situations while offering optimum choice.
- In our Pay-and-Display operations, we have eliminated unnecessary street "furniture" such as meters and meter poles for an improved and aesthetically pleasing streetscape.

Questions

• Removal of single-space meters enhances lots by removing visual clutter and frees up sidewalk space for pedestrians and other uses.

3. Is our Town the first to use these new meters? What if they have problems?

Many parking operators, universities and cities are moving away from single-space parking meters to multi-space meters. The specific parking meters purchased by the Town have been installed throughout the U.S., Canada and Mexico. This company was selected because it has an excellent reputation for service and reliability. The Town staff has been trained on the operations of the equipment and we also have access to 24/7 support from the manufacturer and on-site service support from a local reseller. Unlike the current single-space meter, another benefit of the new meters is that any meter may be used to purchase parking.

4. These parking meters appear much more expensive than the current meters. How can the Town justify spending this money when the existing meters work perfectly fine?

The multi-space meters will quickly pay for themselves. The parking meters will save money by:

- Reducing maintenance and collection costs of maintaining each multi-space meter that covers an area that used to be serviced by 10 to 15 single-space meters.
- Minimizing lost revenue when a meter stop working. Parking may be paid at ANY multi-space parking meter. When one of the single-space meters stopped working, that space received no revenues until it was fixed.
- The modular construction of the parking meters means that repairs can be resolved quickly to minimize maintenance and service costs.
- The meters are highly secure with features that include real-time wireless alarming should there be an attempted break-in.
- When you look at the Cost Per Space of single-space meters to that of the multi-space meters, the costs are quite comparable.
- The remaining single space meters may be replaced in the near future with additional multi-space meters.

5. Why should I pay?

While no one likes to pay for parking, pay parking serves the Town and the public with valuable benefits. For example, turnover of parking spaces is created through pay parking. This means more people can find available parking spaces during the day and ensures merchants have a steady flow of new customers.

6. Does this meter take credit cards?

Yes, the new meters accept Visa, Mastercard and Discover. They also have the ability to accept smart cards should we decide to offer those options in the future. You will also always receive a receipt as a record of your credit card purchase.

7. If I use my credit card, what happens if it gets stuck inside the meter?

Unlike many similar devices, the Town's new parking meters do not totally ingest the card so you can always have physical contact and access to your card.

8. Is my credit card data safe if I use it on one of these new meters?

All of the credit card data stored on the meter is encrypted. The credit card transactions are also approved by the banks in real-time so you have an authorization number on your receipt to reference your transaction.

9. Why doesn't the parking meter give change?

The costs and benefits of the changers did not warrant the additional cost. The Town has structured the rates so that change should not be required for most purchases. With the option to use your credit card, you can always ensure you only pay the exact price of the parking rate.

10. These parking meters are too complicated.

It may take some time to get used to the new system, but we believe the added benefits will make the learning effort worthwhile. You will be as comfortable with the new meters as you are with the old ones after only a few uses. To help you better understand the meters, we will have "meter greeters" to assist parkers on-site during the first week of operations. We have also posted step-by-step instructions on the Town web site www.townofsurfsidefl.gov.

11. When does this new parking system take effect? Are the rates and hours of operation changing?

The new parking system goes into effect in early December 2010. The rates and hours of operation have not changed. The meters are enforced 24 hours a day/ seven days a week and the rate is \$1 per hour.

12. What happens if the meter doesn't work?

If you are having difficulties with a parking meter or if you would like to report a problem with the meter, please call the Police Department 24 hours a day/seven days a week at (305) 861-4862.

Occasionally a meter may have a problem accepting a particular form of payment, such as cards or coins, but continues to accept other forms of payment. The payment message will automatically be adjusted to only indicate payment options that are working. In the rare situation where an individual meter goes completely offline, parkers can still park in a space near an out-of-service meter as long as they purchase a receipt from another meter nearby. This is beneficial to the parker as currently they are prohibited from parking at out-of-service meters.

In addition to alarms for payment issues, other messages communicated to Town staff allow for just-in-time maintenance so that coin collection canisters may be emptied before they jam and receipt paper rolls may be replaced before they run out. The Town expects to see a significant reduction in out-of-service times with the new meters compared with the single-space meter.

13. Are the new meters accessible to people with disabilities?

Vehicles displaying a valid disabled placard are exempt from payment.

14. Who do I contact for more information?

For more information, please call Assistant Chief John DiCenso at (305) 861-4862. You can also send questions and comments via e-mail to jdicenso@townofsurfsidefl.gov.
