DESCRIPTION OF ADDITIONAL SERVICES

APPROACH

KEITH believes in a context-based approach that considers multiple facets of the development process resulting in solutions that are curated for each authentic scenario. In addition to the traditional design approach, we believe careful consideration should be given to economic, ecological, and social factors. This cohesive approach to each project is engineered to enhance the opportunity for a resilient solution.

Our approach is categorized into the following three general phases:

Exploration Phase – The process of becoming familiar with an area through extensive analysis - complete

Inspiration Phase – The process of developing ideas emanating from the exploration process - complete

Implementation Phase – The process of activating a decision or plan – ongoing

Upon Town Commission approval of the Final Conceptual Design on 02/12/2025, KEITH has moved into Detailed Design (Implementation Phase) and is in need of additional services to complete the scope of work as defined in the approved conceptual design package.

Per the original agreement, the final art / memorial was to be delivered by others and was not included in KEITH's scope of work. In addition, water features and any major structural engineering were excluded from the original scope of work.

KEITH requires additional scope for the following Memorial elements to be included in the Detailed Design package:

- Narrative/Storyline – coordination with the committee regarding the narrative / storyline
 - Critical numbers to symbolize
 - Who (victims, rescued survivors, survivors, etc)
 - Names – exact names, order, etc
 - First Responders
 - Building Details
 - The Timeline – critical events
 - How items are represented in the space
- Art / Memorial Elements
 - Water Feature (Water Wall) - Aquatic Engineering, Structural Engineering, Lighting / MEP
 - Overlook Canopy – Design, Coordination with Metal Fabricator, Lighting / MEP

- Collapsed / Folded / Segmented Walls – Design, Coordination with Metal Fabricator, Lighting / MEP
 - Tower Element – Design, Coordination with Metal Fabricator, Lighting / MEP
- Additional conceptual design – due to comments received during the commission meeting on 02/12/2025 and email follow-up by the committee, additional time will be required to continue resolving the design for the following elements:
 - Overlook canopy structure
 - Addition of 98 individual elements
- Additional civil engineering, landscape architecture, structural engineering, lighting design and MEP engineering related to additional memorial features noted above. Note: project budget initially estimated at \$2.5 million has increased to approximately \$3.5 million.

Deliverables:

- 30%, 60%, 90%, and Final Plan and Specifications
- Assist with opinion of probable costs
- Client review and comment period

KEITH understands the Town of Surfside will handle all permit applications and submittals based on KEITH's detailed design drawings.

EXHIBIT "A"
CONSULTANT'S PROPOSAL

Exhibit A – Project Understanding and Scope of Services

December 26, 2023

PROJECT UNDERSTANDING

The Town of Surfside (CLIENT) has requested that KEITH assist in the development of a KEITH Life project, Town of Surfside Memorial Park. The PROJECT SITE is located along 88th Street, between Collins Avenue and the Atlantic Ocean in the Town of Surfside. The property consists of one (1) parcel that includes folio number 14-2235-005-4180 and the OWNER of the property is listed as Town of Surfside. The project area may be slightly increased due to the design and conceptual development as was described in the RFQ response. If additional areas are to be included in future phases of design and implementation, the project area will be updated accordingly. For now the focus will remain on the 88th Street corridor from Collins Avenue to the Beach as generally shown in the graphics on the following page.

The project program for the Town of Surfside Memorial Park includes the design and development of a linear memorial park / plaza located on 88th Street, between Collins Avenue and the Atlantic Ocean. Understanding the balance between creating a meaningful open space and appropriately communicating the needs and emotions of the day that is being remembered and how it impacts those who visit will play a significant role in realizing the design of this memorial space. Also to be considered is the unique location of the project site and balancing the design of an exceptional waterfront park along the sensitive ecosystem of the beach, dunes and Atlantic Ocean.

The linear memorial design will also be required to maintain / incorporate emergency access to the beach. The inclusion of an artist or call to artists is a unique component of the project that will be coordinated to ensure an art component is a focus of the project. Specific program elements / materials that may be included within the project scope comprise: Re-use of materials (recycled concrete, rebar, copper wiring), vertical elements, natural and locally relevant materials.

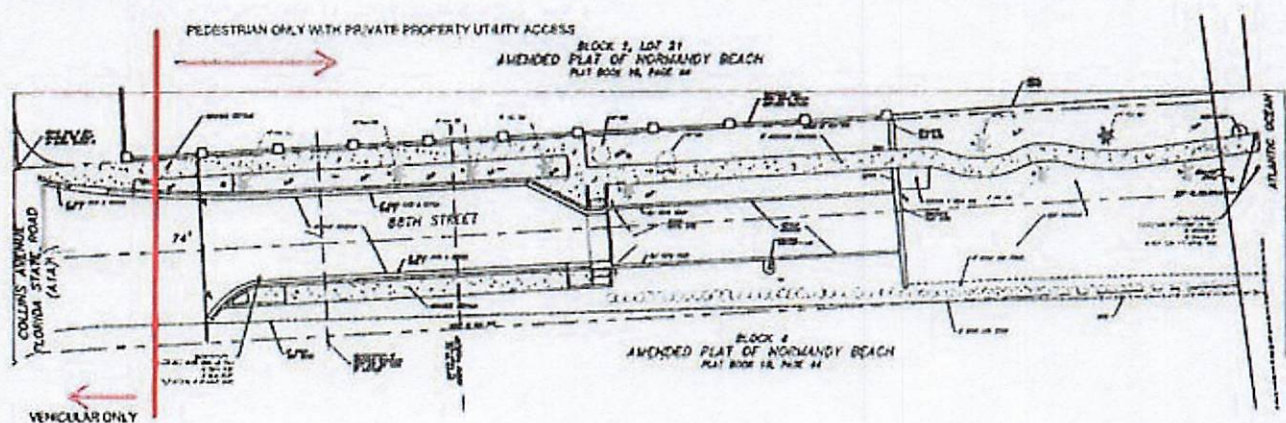

KEITH has not included any potential scope of work that is offsite. Offsite improvements, that may result as a part of this project, will be considered as additional service and contracted if necessary, through an addendum to this agreement. KEITH will work to identify any potential offsite improvements as early as possible for the Town to review.

KEITH will be responsible for the following disciplines: Survey/SUE (included as alternate), Planning, Civil Engineering, Landscape Architecture, Utility Coordination, Artist Collaboration / Site Specific Art and Design, Resiliency Planning, Public Outreach, Lighting Design, Structural Engineering and MEP. The scope of work is specifically described on the following pages and does not include work by other necessary disciplines unless specifically noted in the contract. The CLIENT/OWNER is responsible for all other disciplines to complete the project. For this project KEITH has included as subconsultants: Michael Singer Studios, Brizaga, and HLB Lighting. KEITH has identified the following agencies that will require coordination, submittals and or permitting throughout the project: Town of Surfside, Miami-Dade County and the Federal Department of Transportation (FDOT). If additional agency coordination is required, this will be included as a contract addendum.

DESCRIPTION OF SERVICES AND DELIVERABLES

APPROACH

KEITH believes in a context-based approach that considers multiple facets of the development process resulting in solutions that are curated for each authentic scenario. In addition to the traditional design approach, we believe careful consideration should be given to economic, ecological, and social factors. This cohesive approach to each project is engineered to enhance the opportunity for a resilient solution.

Our approach is categorized into the following three general phases:

Exploration Phase – The process of becoming familiar with an area through extensive analysis.

Inspiration Phase – The process of developing ideas emanating from the exploration process.

Implementation Phase – The process of activating a decision or plan.

PHASE 1 - MEETINGS AND COORDINATION

Task 001 Team Meetings and Meetings with Government Agencies / Permit Authorities

KEITH will coordinate, prepare for and attend meetings with Government Agencies, including project orientation meetings, review with Town Planning, Zoning, Fire Marshall, Engineering, and Utility representatives, and coordinate with applicable State and County Agencies required for final permit submittals.

KEITH will prepare for and attend all team meetings on an as needed basis for the duration of the project. KEITH will be represented at reoccurring team meetings by the project manager and when necessary, any team experts for specific disciplines.

For all applicable meetings KEITH will provide meeting minutes for the use of capturing discussion items, setting action items as well as follow-up. Unless directed otherwise by the CLIENT, these meeting minutes will only serve to capture the items directly responsible for the KEITH team and the interaction with agencies and/or the CLIENT.

As defined in the project schedule, the following milestones / deliverables will be included in the meetings phase:

- It is assumed that there will be bi-weekly project management meetings with the Town staff and also various meetings with agencies and review departments throughout the duration of the project.

PHASE 2 – EXPLORATION

Data Gathering and Analysis - The purpose of this task is to work collaboratively with the Town, staff and community to understand the context and influences on the project and to communicate these for review and discussion. The team has reviewed the most recent park committee report provided by the Surfside Memorial Committee on February 28, 2023. This will serve as the starting point for the project team. We understand the main objectives are to:

- Identify the message the Memorial will convey.
- Determine the elements that will convey the message.
- Establish parameters to guide the design.
- Retain an artist.

The end goal of this exploration phase is to develop an overview of the study area, previously prepared concepts and other influences to highlight strengths, weaknesses and opportunities. This will include survey (as alternate) of the site and surrounding areas, environmental assessment as well as a case study review of similar memorial projects to provide benchmarking and review elements. At this early stage, the team will

be reviewing the programming and operation/maintenance considerations for the desired Parks, Recreation and Open Space (PROS) plan. These findings will then be developed into a series of presentations for review/input of the Town and stakeholders and will be utilized as a starting point for the preliminary engineering and conceptual development of the team and to confirm the desired program for the project moving forward.

Disciplines and services provided during the exploration phase include:

- Survey – Topo, Boundary and Tree (included as alternate)
- Planning – Due Diligence and Site Planning Assistance
- Public Outreach – Public Involvement Plan
- Resiliency – Due Diligence and Preliminary Analysis
- Civil Engineering – Due Diligence and Preliminary Analysis
- Landscape Architecture – Due Diligence and Preliminary Analysis
- Lighting Design – Site Observation Report / Basis of Design Program Summary
- Artist Collaboration – Dialogue regarding approach / Call to Artist process

As defined in the project schedule, the following milestones / deliverables will be included in the exploration phase:

- Kick-off Meeting – To be conducted with Town Staff.
- Survey - develop (or review) final and updated Topo Boundary Survey for the project site as defined in the project scope (included as alternate).
- Community Participation Plan – KEITH will develop a Community Participation Plan that will also include the development of a website to host regular updates on the project as well as identifying the communication process and strategies to deliver information throughout the project.
- Project Startup and Data Review – This will include development of base materials which will also utilize drone capture site data, site reconnaissance, and develop additional base data and code research.
- Develop Program for Preliminary Community Meetings – This will include preliminary programming elements, site design concepts at diagrammatic level, presentation for input and facilitation of meetings community meetings.
- Public Meetings/Workshops - There will be up to three (3) public meetings during this phase to present programming and preliminary conceptual visions.
 - Town Commission
 - Surfside Memorial Committee
 - Public and Community Meeting
- Analysis of Feedback from Community Meeting – Develop summary of feedback from the meetings/presentations to allow inspiration phases to commence.

PHASE 3 – INSPIRATION

Based on the completed and approved Exploration Phase, the KEITH Team will develop initial recommendations and ideas for review by the Town Staff and identified stakeholders. The intent of this phase is to develop the preliminary design(s) and determine which of the ideas provide the best overall solution for the Town's goals. Typically, at this phase there will be a number of ideas or design plans developed for the project. Each will take a slightly contrasting approach – all of them will take input from the Town Staff and identified stakeholders, and appropriate KEITH team members to ensure the concepts represent the community's desire for the Memorial Park. The drawings and presentations prepared during this phase of design will be more conceptual in nature; however, they will be based on the detailed information gathered during the Exploration Phase and the community/stakeholder workshops that have already been completed.

Presentations, documents, and drawings produced in this phase will include illustrative plans, diagrams, before and after photo visualizations, 3D renderings, character imagery, opinions of probable costs, and other related graphic presentations to convey the overall intent of design. These documents will be reviewed and coordinated with Town Staff and identified stakeholders. This phase will also include a series of public workshops or community input sessions. The intent of this phase is to arrive at a single conceptual design that will be the basis for guiding the project forward into detailed design and/or the implementation phase.

Disciplines and services provided during the inspiration phase include:

- **Planning – Site Planning Assistance and Site Plan Development**
- **Public Outreach – Public Outreach**
- **Resiliency – Conceptual Design and Policy Review**
- **Civil Engineering – Conceptual Design**
- **Landscape Architecture – Conceptual Design**
- **Lighting Design – Conceptual Design**
- **MEP – Conceptual Design**

Deliverables

- **Conceptual Design Alternates and Cost Estimates– To include at a minimum up to two alternative designs including plans, 3D realistic renderings (up to 4 for each alternative), supporting diagrams and imagery as appropriate and cost estimation, based on Town of Surfside Staff direction. Concepts will be prepared in a preliminary and final submittal for reviews.**
- **Refine Conceptual Design for Preferred Alternative – To include a finalized version of a single concept to include all elements included conceptual site plan, 3D renderings and imagery to support as well as diagrams and cost information.**
- **Artist Collaboration – During this phase of the design the inclusion of the artist will be finalized which may include a special Call for Artist or development of art by the Michael Singer Studio artist included on the team. The art will be integrated into the Memorial Park designated area.**
- **Public Meetings/Workshops - There will be up to six (6) public meetings during this phase to present conceptual and schematic design presentations.**

PHASE 4 – IMPLEMENTATION OF THE MEMORIAL PARK

Based on the approved Inspiration Phase of Design, KEITH will develop detailed design documents in coordination with the overall design team and CLIENT. The drawings will be developed in a 30%, 60% and 90% progress documentation for review and coordination, as well as a final for Permit and 100% Construction Documentation.

The anticipated scope for the project during construction includes the following deliverables and site area. The site is generally defined as the ROW on 88th Street east of Collins Ave to the dune on the east end of the street. The program is generally anticipated to include modified roadway configuration to County standards, pedestrian walkways, site furniture including (seating, trash receptacles, drinking fountain and bollards), site lighting is not anticipated to be custom, Florida Friendly Landscaping, Irrigation, Drainage, Minor Site structures including minor signage/wayfinding, trellis or overhead open air pavilion, coordination with the artist for memorial art location and design. Note that this scope does not include any major structural or MEP for building or similar structure. This scope does not include the KEITH Team developing the art or the full memorial as part of this scope. It is generally understood that the total cost for construction is intended to be no more than \$2,500,000 with approximately \$500,000 devoted to the memorial art component. KEITH is responsible for the scope in this proposal as it relates to the Surfside Memorial Park and the design of the memorial art and artist is to be delivered by others. KEITH team is to work with artist selected for the Memorial. KEITH team will assist through Call for Artist to obtain artist for Memorial.

KEITH understands the Town of Surfside will handle all permit applications and submittals based on KEITH's detailed design drawings.

Disciplines and services provided during the exploration phase include:

- Civil Engineering – Detailed Design
- Landscape Architecture – Detailed Design
- Site Lighting – Detailed Design
- Structure – Detailed Design
- MEP – Detailed Design

Deliverables:

- Attend bi-weekly design meetings
- 30%, 60%, 90%, and Final Plan and Specifications
