Planning and Zoning Communication

Agenda Date: March 29, 2018

Subject: Realtor Signs

From: Alan P. Graham, Code Compliance Director

Background: We need some guidance from the Planning and Zoning Board regarding the intent of the realtor sign code. One section of the code (90-74(a)(2) (attached) requires the sign to be professionally lettered. However, many property owners in Surfside purchase pre-made signs at Home Depot, ACE Hardware or Lowes, and these sign are professionally lettered as FOR SALE, or FOR RENT, but the signs also have a place on it where the property owner can “hand write” their phone number or details about the house (such as 3 bedrooms, 2 bath) on the sign in Magic Marker or with a Sharpee marker (see attached photos). So, the question for the Planning & Zoning Board is: Does a professionally lettered sign that has some hand-written information on it still considered an acceptable realtor sign for use in Surfside? Or must the entire sign be professionally lettered with no hand writing on it?

Analysis: A local resident, who happens to be a realtor, raised this issue to the Code Compliance Division and to the Town Manager. The resident believes that such signs (with hand written phone numbers and house information) are unprofessional and do not meet the current Town Code.

The Code Compliance Division has no opinion on this matter and needs to remain neutral as we are the ones who enforce this section of the Town Code, and we need your interpretation of this section of the Town Code.

Planning & Zoning Communication

Agenda Date: March 29, 2018
Subject: Aggregation of Single Family Lots
From: Sarah Sinatra Gould, AICP, Town Planner

Background: Commissioner Karukin requested the Town Commission to direct the Planning and Zoning Board (Board) to modify the zoning code to address the effects of aggregation of single family lots. The Town Commission voted in favor of the Board analyzing this issue. See attached memorandum from Commissioner Karukin.

Analysis: Side setbacks for interior single family lots are a minimum of five feet. If the lot is more than 50 feet in width (which is measured at the front lot line) the side setback is 10% of the lot width. In the H30B zoning district, which is made up of the dry lots in Town, the typical lot is 50 feet in width. Therefore, if a lot is combined, the frontage could be 100 feet in width, resulting in a home that is 80 feet in width on the first floor. The second floor would have additional side setbacks.

In the H30A zoning district, which includes homes on the water, the original platted lots were an average of 50 feet in width. Many of these homes have split lots with the neighboring properties, which have resulted in parcels that are 75 feet or 100 feet in width. If these size lots were to be aggregated, the resulting frontage could be 200 feet, which would result in a home that is 160 feet in length.

Staff is suggesting the following. Graphics will be presented at the meeting.

1. Increase side setbacks for lots over 75 feet in the H30B district and for lots over 100 feet in the H30A district to 20% of the frontage. This means that if there is a 100 foot wide lot in the H30B district, which includes the dry lots in Town, it would require 20 foot setbacks on either side, resulting in a 60 foot wide home.
2. In connection with the additional side setbacks for the first floor, require that lots greater than 75 feet in the H30B district and 100 feet in the H30A districts not be permitted to have second stories greater than 65% of the first floor.

Re: Architecturally Significant analysis in H30C, H40 & SD-B40

The Architecturally Significant ordinance is applicable only to the H120 district. The ordinance permits a building to reduce the side setbacks on a vertical addition to the existing building’s setbacks. The current code requires buildings to step back the setbacks after a building reaches 30 feet in height. The intended consequence is for buildings to retain their historic appearance and potentially be lower due to requirements of the ordinance.

The Planning and Zoning Board requested staff to consider applying this ordinance to other zoning districts. The challenge is that height in the H30C districts is limited to 30 feet and height in the H40 and SD-B40 district is 40 feet. This minimizes the potential for incentives. Below are the development requirements for the H30C, H40 and SD-B40 districts. The Planning and Zoning Board should review and identify if opportunities for incentives exist. It is staff’s opinion that there are not opportunities to apply this ordinance in these districts.
