

## MESSAGE FROM THE TOWN MANAGER

### Reflecting During Surfside's Busy Holiday Season

Ready or not, the annual holiday wave is washing over our Town.

From the twinkling lights along Harding Avenue to the decorations on lawns in our close-knit neighborhoods, Surfside is dressed up for the season. Amid gatherings, special events and shopping, we should take time to reflect on 2017.

Still fresh in our minds is the impact of Hurricane Irma. On November 1, Surfside held a well attended public meeting to review our actions before, during and after the storm. Overall, the Town received mostly high marks in all categories and no residents or staff were injured during the storm. In the days prior to landfall, extra garbage and trash was collected. This meant less debris had to be collected after the storm, enabling the Town to return to normal sooner than other communities. Surfside police went door-to-door to alert residents of the evacuation. After the storm, they checked on those who chose to stay. The Police also ensured that only Surfside residents could re-enter the Town after the storm, minimizing any crimes.

What will we do better? Clear and effective communication with residents, businesses and partners is critical. Hurricanes remain difficult to predict. Everyone must know their role and responsibility when situations quickly change.

Preparation remains more important than ever. Plan on getting involved early in the planning and preparation of the 2018 hurricane season.

Remember to patronize our variety of high quality shops and restaurants in our business district this season. On behalf of our staff and elected officials, have a wonderful and safe holiday.

- Guillermo Olmedillo, Town Manager

## CODE COMPLIANCE CORNER

## Tree Trimming and Pruning

Landscape trees not only make homes and communities more beautiful, they also improve our environment and can increase the value of a property up to 20 percent. Trees are invaluable assets that need to be enhanced and protected. Proper pruning is a worthwhile investment.

When a tree or part of a tree breaks, it can cause extensive damage to people and property. A preventive pruning program is important to minimize the risks. Preventive or structural pruning is a process that can help promote healthy, strong trees. Research studies suggest that pruning trees significantly reduces trunk movement and damage when exposed to 120 mph winds.

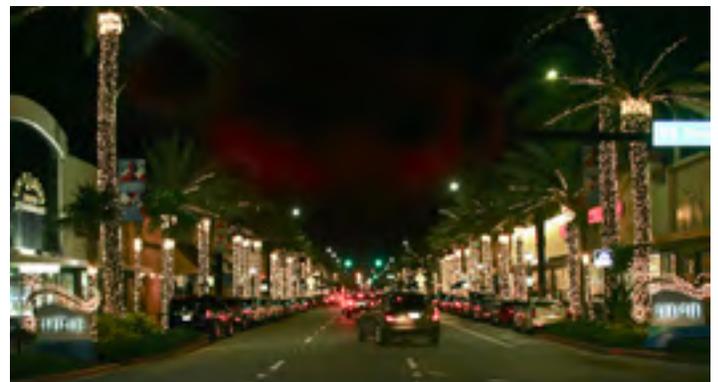

Because proper pruning is complicated, national standards have been developed for the best methods and safety. Any potentially hazardous activity associated with climbing trees, using power tools, and especially working near electric lines should be left to qualified professionals who follow the national tree safety standards.

A tree removal/relocation permit is not required for the selective pruning or trimming of trees, provided the pruning is done according to the most recent American National Standards (ANSI) A-300 Standard Practices for Tree Care Operations.

However, excessive pruning of more than 25 percent of the tree's canopy (i.e. hat-racking, topping, etc.) and other activities (i.e. trunk girdling, excessive root cutting, use of tree-killing chemicals, etc.) constitutes a violation of Section 24-49 of the Code of Miami-Dade County.

Thinking about pruning/trimming your trees? Please hire only licensed and insured arborist that knows how to proper care and prune trees.

## NEW WALKING-FRIENDLY STREETScape TO BE TESTED

The Town Commission approved to conduct a test of a new streetscape design on 89th and 90th Streets, between Harding and Hawthorne. The test consists of creating a safe pedestrian path and a green area in what is currently the paved area of those streets. Because width of the street will be narrowed during the test, the streets will be changed to a one-way system, with 90th street traffic moving from west to east and 89th Street traffic moving from east to west. The streets will be marked with paint to designate the pedestrian area as well as the green/parking area.

The test will run for 60 days, starting on the first week of December. At the end of the test period, staff will present a report to the Town Commission.

## Town Hall Lobby an Official 'Meetup Spot'

The Surfside Police Department is offering a safe location for buyers and sellers of items that are listed and exchanged on the internet. The Town lobby near the Police Dispatch is a designated "Meetup Spot." A sign, donated to the Town by OfferUp, is on the lobby wall (see at left). The safe location is a strong deterrent to criminal intent and activity. If the parties involved in an internet exchange know law enforcement is watching, they are less likely to engage in a crime. The Surfside Police Department is a designated location on the OfferUp app as a suggested place to complete an in-person transaction.
