PERMANENT MEMORIAL: A LOOK AHEAD

The Town of Surfside is working on preparations for a permanent memorial at 88th Street that will serve as an enduring space of remembrance honoring the 98 souls lost in the June 2021 collapse. The Town has created a Memorial Committee comprised of family relatives to help guide the process. At the committee's request, the Town will soon be launching an RFP for Professional Landscape Services in order to solicit proposals for a memorial park design. Updates will be shared through Town communications channels once the process is underway. We look forward to a solemn and beautiful space where relatives and the entire Surfside community can find solace.

This exclusive, resident-only collection event was for household items such as old drain cleaner, glass cleaner, used motor oils, fertilizers, fluorescent lightbulbs and used batteries. Thank you to all the residents that participated in our annual event. The Town of Surfside remains committed to providing services to residents that help keep our environment clean. Remember that batteries and electronics are collected year-round at Town Hall and please do not dispose of hazardous materials (i.e paint, chemicals, and biohazardous) in the regular trash.

IT'S SUMMER (AND MOSQUITO) TIME!

From Code Compliance – During summertime, we experience an increase in temperature and lots of rain, contributing to mosquito breeding. Aside from being a nuisance, bites from infected mosquitoes can spread different diseases.

Here are some tips to help you and the community to be protected.

- Get rid of standing water in and around your home or your business. Make sure to drain water from house gutters, trash cans, pet bowls, flower pots, or any other container where water has accumulated.
- Properly discard any item, such as old tires, bottles, containers, or toys, that are not being used. These items can collect water, creating a breeding ground for mosquitoes.
- If you have bromeliads as part of your landscape, flush the water out of your plants since they can hold water between their leaves.
- Ensure your pool's chemical balance is correct, and drain plastic swimming pools when not in use.
- Mosquitoes are most active during dawn and dusk. Cover your skin with clothing and apply mosquito repellent if you are out during this time.

Please report any neglected pool or any other accumulation of standing water to the Town's Code Compliance Division at 305-861-4863, ext. 233. You can also report any mosquito nuisance areas to Miami-Dade County by dialing 311.

HURRICANE SEASON STARTS JUNE 1

Hurricane season officially begins June 1 in Florida and runs through November 30. Last year served as a sobering reminder of the power these storms can bring to coastal communities.

Don't get caught off guard! Now is the time to prepare. Visit the Town website as well as miamidade.gov/hurricane for a list of resources and more information.

Earth Month Recap

SURFSIDE'S EARTH DAY CELEBRATIONS SOAR TO NEW HEIGHTS WITH RESOURCE FAIR AND PLASTIC FISHING FESTIVAL

Surfside's Earth Day celebrations reached new heights this year with two combined incredible events that left a lasting impact. The Plastic Fishing Festival, in partnership with @plasticfisherman and presented by the Tourist Board, captivated hundreds of participants, shedding light on the dangers of marine plastic pollution while showcasing a stunning array of new plastic fish species.

Meanwhile, the Earth Day Resource Fair, hosted by Parks & Recreation, drew a crowd of over 400 attendees who reveled in the live music, engaging kids' activities, a remarkable lineup of local environmental partners and even a pelican release! Together, these events brought the community closer, fostering a shared commitment to protect our planet and its delicate ecosystems.

This year's Earth Day Resource Fair ended with a very special pelican release organized by Pelican Harbor Seabird Station. The organization is dedicated to improving the lives of sick, injured and orphaned native wildlife and releasing them back into the ecosystem.

Mayor Danzinger and Commissioner Landsman joined Commissioner Meischoid, who had the honors of releasing the rehabilitated pelican back into the wild!

SURFSIDE LEADS THE WAY IN DUNE RESILIENCY

Surfside's innovative approach to dune resiliency has gained recognition from environmental agencies and experts placing the Town as a leader in this field. Recently, the Town hosted dune tours for the Florida Department of Environmental Protection and the Commission for the City of Hollywood Beach. Also touring students from Little Red School House and Elisabeth Irwin High School in New York City to showcase Surfside's approach to climate change action.

The dune tours provided an opportunity for participants to learn about Surfside's extensive dune management system, invasive species removal efforts and mitigation plans for sea level rise and climate change. The tours were a great success and received positive feedback from all participants.

The High School excursion was arranged by Commissioner Marianne Meischoid. Commissioner Meischoid expressed her excitement about the Town's dune resiliency efforts, stating that "Surfside is dedicated to preserving our unique coastal environment and ensuring the safety and well-being of our residents and visitors. The dune tours were a great opportunity to showcase our commitment to sustainability and environmental responsibility."

WHAT TO DO IF YOU SEE A SEA TURTLE

If you observe an adult sea turtle or hatchling sea turtle on the beach, please adhere to the following rules and guidelines:

1. It is normal for sea turtles to be crawling on the beach on summer nights. **DO NOT** report normal crawling or nesting (digging or laying eggs) to the Florida Fish and Wildlife Conservation Commission unless the turtle is in a dangerous situation or has wandered off the beach. (on a road, in parking lot, etc.)
2. Stay away from crawling or nesting sea turtles. Although the urge to observe closely will be great, please resist. Nesting is a critical stage in the sea turtle's life cycle. Please leave them undisturbed.
3. **DO REPORT** all stranded (dead or injured) turtles to the Florida Fish and Wildlife Conservation Commission.

NEVER handle hatchling sea turtles. If you observe hatchlings wandering away from the ocean or on the beach, call: 1-888-404-FWCC or *FWC (Mobile)

DOH-MIAMI-DADE PROMOTES WATER SAFETY MONTH

Contact:

Office of Communication
786-336-1276

Miami, Fla. – The Florida Department of Health in Miami-Dade County (DOH-Miami-Dade) encourages communities to participate in National Water Safety Month in May. Take precautions to prevent drownings.

With pools, lakes, and other surrounding bodies of water in Florida, water safety is critical to prevent drownings. Children ages 1-4 years are more likely to drown in a home swimming pool than children ages 5-19 years, who are more likely to drown in natural bodies of water. Whether you are a parent or a community group member, everyone plays a role in drowning prevention. The goal is to keep water activities fun and safe for all as we move into the summer months.

Tips on Water Safety:

- Always keep your eyes on children in and around water, including pools and open bodies of water. Actively supervising and giving children your undivided attention when they are in or around water can help prevent drownings.
- **Never** leave a child alone around water.
- If your child is missing, check other pools or surrounding bodies of water.
- Use barriers around water, including fences, self-closing/self-latching gates, and secure doors with alarms. Barriers help prevent young children from wandering into bodies of water, including lakes, pools, ponds, and more.
Have a phone nearby in case you need to call 911 in an emergency.

Beach and Lake Swimming:

Swimming in open water is different than swimming in a pool. Even the strongest swimmer can get into trouble swimming in open water. Here are some tips for swimming at the beach or lake:

- **Swim It:** Always swim with a buddy, and when safety flags and signs give it the all-clear to do so.
- **Shore It:** If you have a weakened immune system, a cut on your skin, or don't have a buddy to swim with, stay on dry land.
- **Dodge It:** If you encounter animals that live near or in the water, stay away. Also, algal blooms like red tide and blue-green algae, which cause skin irritation, burning eyes and throat, and breathing irritations. For current information on red tide or blue-green algae, please visit <https://protectingfloridatogether.gov/>.

For more information on water safety, visit <https://www.floridahealth.gov/programs-and-services/prevention/drowning-prevention/index.html>.
